REQUIRED FINDINGS:

**Public Works Board
Recommendation**

Vote: N/A

Prepared By:
Chris T. Trusty
City Engineer

NOTES/COMMENTS:

RECOMMENDATION:

Staff recommends that the City Council approves a bid award to Staker Parson Companies not to exceed the amount of \$673,360.00 for the extension of Bobby Wren Boulevard, including additive alternate 1.

BACKGROUND:

Bobby Wren Boulevard currently exists from Pony Express Parkway to Pioneer Addition Phase 5. This project will extend the existing road to Pioneer Addition 7, allowing traffic from the newer phases of Pioneer Addition easier access to Pony Express Parkway. This will also reduce the number of cars driving through the neighborhood, making it safer for pedestrians. This project will also include a pedestrian trail on the south side of the road.

As an alternate bid, the City included the completion of a trail along the western portion of Bobby Wren, from Pony Express Parkway to Roost Road. This was a project that was funded to be completed by City staff, but with the opportunity to try to include it as a portion of this project, it seemed reasonable to ask interested contractors to include a price as an additive alternate. The project can be awarded for the base bid alone, or with the additive alternate included.
